PERSONAL INFORMATION WE COLLECT FROM AND ABOUT YOU

A. General

“Personal Information” is information that identifies you as an individual or relates to an identifiable person, including for example, your name, e-mail address, postal address, phone number, and payment card information. We do not collect any Personal Information from you unless you provide it to us voluntarily (e.g., through interaction or registration with the Services). We may combine the Personal Information we receive

from you with information we receive about you from other sources, such as our affiliates, public databases, joint marketing partners, social media platforms, from people with whom you are friends or otherwise connected on social media platforms, and from other third parties. For example, if you elect to connect your social media account to your Services account, certain Personal Information from your social media account may be shared with us, such as your name, email address, photo, and location. This Personal Information may be combined with other information that is part of your profile or your friends' profiles.

B. Memberships and Registration

Some areas of the Services may allow you to visit as a guest and remain anonymous, but you may not be able to access all the content and features of those areas without registering (e.g., in order to play our subscription-based games, information such as your real name and billing information is required). Important information regarding account registration procedures and the security of your account is set out in the Daybreak [Terms of Service](#).

C. E-mail Newsletters and Friend to Friend Promotions

Typically you need to have an account in order to receive e-mails from us, provided that you may receive e-mail communications from us if you have contacted us directly with regard to a specific request or if you have expressly agreed to receive e-mail communications for promotion, marketing, or newsletters. You may be asked for additional Personal Information when you subscribe. You can opt-out of receiving future marketing e-mails from us by following the unsubscribe directions contained in the e-mail. Also, except in jurisdictions where it may be prohibited by law, we may allow you to submit information about other people, such as in connection with a "Send to a Friend" promotion. In these situations, you may provide the e-mail address and, sometimes, the name of a friend, provided you have their permission to do so. After the "Send to a Friend" transaction is completed, that information is deleted.

D. Sweepstakes, Contests, and Promotions

To participate in some of our sweepstakes, contests, surveys, and other promotions, you may be asked to provide additional Personal Information such as your physical mailing address. This information may be collected by Daybreak Games and/or by third parties such as co-sponsors or vendors for the promotion. Potential winners will be required to provide additional Personal Information for the purpose of verifying eligibility, awarding prizes, and for tax purposes. The names of third parties such as co-sponsors (other than vendors hired by Daybreak Games to conduct, administer, and execute a promotion on behalf of Daybreak Games) will be disclosed to you when you are asked to sign up for the promotion. You should review such third parties' privacy policies to see how they may use any information that they collect.

E. Online Purchases and Technical Support

When you sign up to play one of our fee-based games or you make certain online purchases from us, we will require that you provide us with the necessary billing information, such as your name, credit card or payment information, street address, etc., so that we may provide the content, game, service, or product to you. In order to resolve issues related to customer service, billing questions, technical, and computer support, etc., we may also require you to provide us with some Personal Information so that we may resolve such issues properly.

We may use a third-party payment service to process payments made through the Services. If you wish to make a payment through the Services, your Personal Information may be collected by such third party and not by us and will be subject to the third party's privacy policy, rather than this Privacy Policy. We have no control over, and are not responsible for, this third party's collection, use, and disclosure of your Personal Information.

F. Hosting of Third-Party Services

Certain Services may be provided to you in conjunction with a third party. During the registration process for any such Service, you may be notified that such third party wishes access to some of your Personal Information and you will be given an opportunity to decline to share that information with that third party. If you decline, you may not be able to use the relevant Services. A third party's use of the shared Personal Information will be governed by the third party's own privacy policy, and Daybreak Games' use of such information will be governed by this Privacy Policy.

G. Consent to Store & Monitor

Please note that, when running, some of our games may monitor your computer's random access memory ("RAM"), media access control ("MAC") address, configuration files and system files, etc., for unauthorized third party programs running concurrently with your game which, in Daybreak Games' sole determination: (i) enable or facilitate cheating of any type; (ii) allow users to modify or hack the applicable Daybreak Games game interface, environment, and/or experience in any way not expressly authorized by Daybreak Games; or (iii) intercept, "mine" or otherwise collect information from or through the applicable Daybreak Games game (each, an "Unauthorized Third Party Program"). In the event that a Daybreak Games game detects an Unauthorized Third Party Program, (a) the Daybreak Games game may communicate information back to Daybreak Games, including without limitation, your Daybreak Games account username, details about the Unauthorized Third Party Program detected and the activities or functions performed thereby, and/or details about your computer, and/or (b) Daybreak Games may exercise any or all of its rights and remedies, including, without limitation, its rights and remedies under the Daybreak [Terms of Service](#) and/or the

Daybreak Games end user license agreement without prior notice to the user linked to such Unauthorized Third Party Program.

When you communicate with another game player or with us within the Services (e.g., through live chat, instant message services, message boards, and the like), even when you believe you are doing so “privately” with another person, you do so with the understanding that those communications go through our servers, and to the maximum extent permitted by applicable law you expressly agree to waive any rights of confidentiality that you may have in and to such communications, you agree you have no expectation of privacy in such communications and in using this functionality you acknowledge that we, (or our agents’) may monitor the communications that you send and receive through the Services (including, without limitation, technical support and customer service communications). You also acknowledge that any and all character data that is stored and is resident on our servers may be monitored by us or our agents (to the extent permitted by applicable law).

H. Business Capacity and Resume Submissions

Daybreak Games allows for the online submission of tax forms and resumes. Please be advised that information (including Personal Information) contained in a tax form, a job applicant’s resume, or otherwise submitted to Daybreak Games in a business capacity is not subject to the terms of any other section of this Privacy Policy. The information obtained in these instances will only be used for the purpose for which it was collected (i.e., accepting and evaluating your submission for a job, contacting you, your previous employers, and your references, processing payments, etc.).

When we collect Social Security numbers in the course of our business (such as when a vendor or Player Studio registrant submits a tax form), it is our policy to protect the confidentiality of such numbers, prohibit their unlawful disclosure, and limit access to them.

I. Collection of Personal Information about Other Individuals

The Services may allow you to provide Personal Information relating to certain third parties, such as your family members and friends. Except as provided by applicable laws and/or as described in this Privacy Policy, you will not give any such Personal Information to us or our service providers without the relevant individual’s consent.

[Back to top](#)

OTHER INFORMATION WE COLLECT FROM YOU

We and our service providers may collect information that does not reveal your specific identity or does not directly relate to an individual (“Other Information”). Because Other Information does not personally identify you, we may use and disclose it for any purpose, except where we are required to do otherwise under applicable law. If we are required to treat Other Information as Personal Information under applicable law, then we may use and disclose it for all the purposes for which we use and disclose Personal Information.

We may combine the Other Information we collect from and about you with Personal Information. If we do, we will treat the combined information as Personal Information for as long as it is combined.

We and our service providers may collect Other Information in a variety of ways, including:

A. Browser and Device Information

Certain information is collected by most browsers or automatically through your device or with session information, such as your Media Access Control (MAC) address, computer type (Windows or Macintosh), screen resolution, operating system name and version, device manufacturer and model, language, Internet browser type and version, and the name and version of the Services you are using. We use this information to ensure that the Services function properly.

Your IP address is a number that is automatically assigned to the computer that you are using by your Internet Service Provider. An IP address may be identified and logged automatically in our server log files whenever a user accesses the Services, along with the time of the visit and the page(s) that were visited. Collecting IP Addresses is standard practice and is done automatically by many websites, applications, and other services. We use IP Addresses for purposes such as calculating usage levels of the Services, helping diagnose server problems, and administering the Services.

In addition, when you play our games or use the communication features available through the Services, we may collect your IP address. When any Daybreak Games game is updated or “patched,” our patch routine may check your computer to see that you have the most recent version of Daybreak Games game-specific files. When you log into one of the Daybreak Games’ games, we may collect your system specifications (such as RAM, video card, monitor, system configuration, crash data, etc.) for the purposes of analyzing and optimizing your Daybreak Games game experience and in order to provide you with customer service.

B. Through your use of our apps

When you download and use one of our applications, we and our service providers may track and collect app usage data, such as the date and time the app on your device accesses our servers and what information and files have been downloaded to the app based on your device number.

C. Information collected through cookies, pixel tags, and other technology

We and our service providers may use cookies, pixel tags, and other tracking technology when you visit or use the Services. Please see our [Cookie Policy](#) for details on our use of these technologies and instructions on how you may manage them.

We assign a unique identifier to every user of our websites and launchpad (i.e., our game launchers). The unique identifier allows us to recognize the same user when he or she uses our various Services, including through different devices, and to track his or her use of the Services, thereby giving us a full picture of the user's activity across our Services. If we have collected your Personal Information, or if we collect your Personal Information in the future, we will combine it with the information we have collected through our use of the unique identifier. We use the information collected for analytics purposes and to serve targeted Daybreak Games offers and content to you when you are on the Services.

We and our service providers may also use cookies and other technologies to automatically collect the website or advertisement from which you reached the Services, to track responses to our online advertisements, and to collect information across your use of different Daybreak Games websites. We do not track your behavior on third-party websites or other online services.

Daybreak Games does not control cookies in third party ads and you are encouraged to check the privacy policies of advertisers and/or ad services to learn about their use of cookies and other technology. The ads appearing on the Services may be delivered to you by third-party advertising companies. These companies may use information about your visits to the Services and other sites or online services in order to provide advertisements on the Services and other sites about goods and services that may be of interest to you. If you would like more information about this practice and to know your choices with respect to it, please visit <http://optout.networkadvertising.org/#/> or <http://www.aboutads.info/>.

We use Google Analytics, which uses cookies and similar technologies to analyze how users use the Services, compile statistical reports on Services activity, and provide other services related to the Services. Google Analytics may also collect information

about our users' use of other websites. For more information about Google Analytics, or to opt out of Google Analytics, please go to: <https://tools.google.com/dlpage/gaoptout>.

D. Physical location

We may collect the physical location of your device by, for example, using satellite, cell phone tower, or WiFi signals. We may use your device's physical location to provide you with personalized location-based services and content. In some instances, you may be permitted to allow or deny such uses of your device's location, but if you do, we may not be able to provide you with the applicable personalized services and content.

E. Demographic information and other information provided by you

In connection with some Services, or through surveys or polls, we may ask you to provide information that does not personally identify you. For example, we may ask you to provide information concerning your entertainment preferences, purchasing habits, and the like. This information is generally optional. Daybreak Games requests this information to understand you better and to also bring to your attention new services, programs, or offers that may be of interest to you. Unless combined with Personal Information, this information does not personally identify you.

F. Aggregated information

Aggregated Personal Information does not personally identify you or any other user of the Services (for example, we may aggregate Personal Information to calculate the percentage of our users who have a particular telephone area code).
